## **Deposit Bonus**

Any bonuses, promotions, and benefits that are provided or any trading account are held under the Company's terms and conditions and can be viewed here for more details. Should the company under any circumstance suspect any wrongdoing or deception, the company reserves the right to cancel bonuses, promotions, or benefits that have been provided or are supposed to be provided to the specified trading account. The decision whether to offer a bonus to a prospective/potential client is clearly and indisputably at the company absolute and unreserved discretion. If the balance turns negative the balance is zeroed and the credit i.e., the bonus also zeros.

If the losses exceed the available balance (client's funds), the balance (client's funds) will reach zero and further losses will be deducted from the bonus amount. Then (if not reached the required bonus trading volume) the rest of the remaining bonus will be automatically removed from the equity of the account as soon as the position/s is closed (either by the client or automatically due to the fall of the margin level under 40%)

By registering, opening a live account, and or accepting the terms and conditions within the applicable landing pages and/or client member's area, the trader is acknowledging that they have read, understood, and agreed to be bound by the terms and conditions of this offer.

The company reserves the right to amend, alter or terminate the promotion at its sole discretion, and at any time without notice. We reserve the right to refuse to provide offers and/or promotions to individuals or organisations at our discretion without justification. If we suspect that a client has abused or attempted to abuse a promotion, or otherwise acted with a lack of good faith towards us, the company reserves the right, at its sole discretion, to deny, withhold or withdraw the credit bonus and if necessary, cancel any terms and conditions with respect to that client, either temporarily or permanently or terminate/block the clients access to their dashboard and/or trading accounts. Participation is not allowed for persons under the age of 18 or otherwise under the legal age in their county of residence.

This bonus is NOT intended as a trading credit and cannot be withdrawn. The bonus should not be used to keep any positions open, should your Profit/Loss (P/L) be less than your balance the bonus will be cancelled/removed, potentially resulting in a stop out of any orders. Any loss of trading positions or internal transfer of funds from the trading account will align with our promotion to action

a credit removal equal to the promotional percentage of your withdrawn amount. Should your Profit/Loss (P/L) be less than your available balance total, the bonus will be cancelled. In these circumstances the company shall not be liable for any consequences of the bonus removal or cancellation, including, but not limited to, order(s) closure by stop out.

Should your account be stopped out, the negative balance protection feature will be applied, and any remaining bonus will be removed, resulting in a system zero balance correction on your account. The company accepts no liability whatsoever for any loss resulting from the stop out of open positions where the company has removed the bonus scheme.

Please make careful note of any expiry dates and ensure you have sufficient equity to maintain any open positions should the bonus be withdrawn. The company reserves the right to reverse all profits and trades made as a result of trades being executed on a negative balance. Should a trade be placed using credit only and/or a negative balance, all profits will be removed accordingly. The credit may only be used as leverage and/or equity, should new positions be executed before the negative balance correction is updated, the company reserves the right to reverse trades and remove profits accordingly.

The maximum bonus allowed at any time is R 300 000 on Vault 200 and Vault 100 on Bonus or the equivalent currency per respective trading account. Should your bonus exceed these parameters a system correction is initialized by an automated credit correction service and could affect any open positions. In these circumstances the company shall not be liable for any consequences of the bonus removal, including, but not limited to, order(s) closure by stop out.

The bonus should NOT be included in a trader's margin requirement calculations as the trading account will reflect a margin percentage that is calculated on equity, not the balance. Traders acknowledge that the margin percentage of the trading account may not always accurately align with a trader's calculation as the P/L may never be less than the available trading balance amount. A Bonus trading account is optional, clients that prefer no bonus should opt for a No Bonus trading account available under the new account tab on your client dashboard/portal. The company reserves the right to suspend, close, or unwind any transaction or bonus (with immediate effect) which has resulted from any abuse of trading strategies, misuse of deposited and promotional/bonus
