1. Background

Section 3A(2)(a) of the General Code of Conduct requires that every provider, other than a representative adopt, maintain and implement a Conflict of Interest Management Policy (Policy) that complies with the provisions of FAIS. This policy provides the mechanisms for the identification, mitigation, and management of conflicts of interest that the FSP might be exposed to.

FAIS Conflict of Interest Management Policy is created to comply with the General Code of Conduct and addresses the following:

- Mechanisms utilised to identify conflicts of interest.
- Controls for avoidance and mitigation of conflicts of interest.
- Processes and procedures to ensure compliance with the policy.
- Consequences of non-compliance with the policy.
- Guidance on the types of financial interests that a representative is allowed to receive.
- The basis on which any financial interest is received.

2. Applicability

This policy applies to the provision of all financial services, as defined by FAIS, by 1st Fintech Capital, their juristic representatives, representatives and FAIS affected employees within the FSP. This Policy also applies to independent contractors where they are appointed as representatives of the FSP.

This policy shall apply when an action is undertaken by an FSP or a FAIS affected employee that may amount to an actual or potential conflict of interest that impacts on client being provided with an unbiased and fair financial service.

3. Policy

A conflict of interest may occur when rendering a financial service to a client, whether existing or potential. Such conflict may occur when 1st Fintech Capital or a representative does not act objectively or fails to render an unbiased or fair service to a client. A key conflict may arise when a FAIS affected employee receives a financial or ownership interest from a third party.

The General Code of Conduct requires that all FSPs take the necessary steps to eliminate any practices and services that may create a conflict between their own interests and the interests of clients.

1st Fintech or its representative may not receive an immaterial financial interest of more than R1 000 in any calendar year from the same third party in that calendar year.

The Gifts and Entertainment Policy provides further requirements for FAIS impacted employees. The Gifts and Entertainment Policy requires that the FSP keep a register through which all employees must report gifts and entertainment given or received.

Conflicts of interest situations should be avoided. Where it is not possible to avoid any act, action or reward that may create a conflict of interest, appropriate steps need to be taken to mitigate the impact and must be appropriately disclosed to an existing or potential client at the earliest reasonable opportunity.

Identification of conflicts

The following steps should be taken in order to identify a conflict of interest

- Analyse distribution models
- Analyse 3rd party relationships
- Review the types of financial interests received and offered
- Management to sign off on remuneration models for representatives
- Rules to be put in place regarding the receipt or offering of immaterial financial interest in line with the Gifts and Entertainment Policy.
- Regular reviews of disclosures made in terms of FAIS to ensure the appropriate disclosure and identification of Conflicts of Interest.
- Keep a register of conflicts of interest
- Ensure that all identified conflicts are adequately managed

Management of Conflicts of Interest

Non-compliance with this policy must be escalated to the Key Individual and the Licensed Compliance Officer.
